Williams College '27 seeking opportunities in data science, applied AI, and backend engineering.
Summer '25 backend SWE intern at Ramp NYC, studying at Williams-Exeter Programme at Oxford '26.

SKILLS

Go, Python, Java, JavaScript, C/C++, CUDA, SQL, GNU Octave, Git, Docker
PyTorch, TensorFlow/Keras, Pandas, Matplotlib, Seaborn, OpenCV, MediaPipe

EDUCATION

Williams College | GPA: 3.86 Williamstown, MA
Computer Science & Math, Concentration in Cognitive Science 2023-2027
Relevant coursework: Deep Learning, Parallel Processing, Algorithms, Data Structures, Abstract Algebra, Discrete Math, Multivariate Calculus, Human Geography, Ethics of AI, Cognitive Science & Psychology

EXPERIENCE

Benson Place Blueberry Farm Remote, Heath, MA
Full Stack Developer, Contracted Jan 2025-Mar 2025
Developed custom inventory management and order placement system with email, payment integrations, OTP auth, 6 product types. Used nginx, native JS, Go, Postgres, Redis. Over 2K orders placed annually.

Williams College Low-Resource Machine Translation Lab Williamstown, MA
Research Assistant, Dr. Mark Hopkins Jan 2025
Examined effects of low-resource bilingual vs. multilingual training on parallel and non-overlapping corpora with Meta's NLLB model. Developed language encryption and data selection experiments to control for lexeme overlap, domain overfitting, and model capacity to explain variance in accuracy.

Williams Center for Learning in Action Remote, Williamstown, MA
Transportation Researcher/Developer, Ad Hoc Transit Group Jun 2024-Aug 2024
Researched regional mobility in the Berkshires. Collaborated with transport coordinator to design carpool web app. Developed backend in Go, ride-matching algorithm with Google Maps API. App in prototype.

Williams Students Online Williamstown, MA
Student Developer (Full Stack) Jan 2024-Present
Highly collaborative role at student-run website with 1.5K DAU. Implemented account synchronization, professor review integration, prerequisite matching, and major planning features for course scheduler. Supervised infrastructure upgrades, led winter-term experiential course. React, Go, Postgres tech stack.

Steel City Codes New York, NY
National Board; Various Roles Nov 2020-Aug 2023
Managed daily operations for 2K annual students, conducted outreach, onboarded tutors/staff, organized sponsored events/fundraisers/hackathons, raised over \$15K, designed curricula, tutored 8-12 year olds.

HONORS & AWARDS

Class of 1960s Scholar in Computer Science	2024
Nominee, Ward Prize for Independent Student Projects in Computer Science	2024
Scheila Glickstein Hackner Award for Dedication in the Service of Education for Others	2023
