

Charlie Tharas

charlie@charliemax.dev

SKILLS

Python, Go, SQL, Java, JavaScript, C/C++, CUDA, GNU Octave
PyTorch, TensorFlow/Keras, Pandas, Matplotlib, OpenCV, MediaPipe

EDUCATION

Williams College | GPA: 3.86 | Williams-Exeter Programme at Oxford '26 Williamstown, MA
Computer Science & Math, Concentration in Cognitive Science 2023-2027
Relevant coursework: Deep Learning, Parallel Processing, Algorithms, Data Structures, Abstract Algebra,
Discrete Math, Multivariate Calculus, Human Geography, Ethics of AI, Cognitive Science & Psychology

EXPERIENCE

Ramp New York, NY
Backend Engineer, Intern (Python with Flask, SQLAlchemy) Jun 2025-Aug 2025
Reworked vendor document handling: added bulk upload and download features, created async pipelines
for classification and info extraction, and settled tech debt to reduce team's S3 bills by 40%.

Benson Place Blueberry Farm Remote, Heath, MA
Full Stack Developer, Contracted (Go, Postgres, Redis, native JS) Jan 2025-Jun 2025
Solo developer. Created custom inventory management and order placement system with email, payment
integrations, OTP auth, 6 specialized product types. Supports 1K annual customers, \$20K TPV.

Williams College Low-Resource Machine Translation Lab Williamstown, MA
Research Assistant, Dr. Mark Hopkins (PyTorch) Jan 2025 (Winter Study)
Designed language encryption and data selection experiments to evaluate low-resource bilingual and
multilingual training on parallel and non-overlapping corpora with Meta's NLLB model.

Williams Center for Learning in Action Remote, Williamstown, MA
Transportation Researcher/Developer, Ad Hoc Transit Group (Go, SQLite) Jun 2024-Aug 2024
Researched regional mobility in the Berkshires. Collaborated with transport coordinator to design carpool
web app. Developed backend, ride-matching algorithm leveraging Google Maps API. App in prototype.

Williams Students Online Williamstown, MA
Co-president, Student Developer (Go, Postgres, Redis, React) Jan 2024-Present
Highly collaborative role at student-run website with 1.5K DAU. Integrated microservices for course
scheduler feature, 1K users/semester. Substantial sysadmin work, led Winter Study experiential course.

Steel City Codes New York, NY
National Board; Various Roles Nov 2020-Aug 2023
Managed daily operations for 2K annual students, conducted outreach, onboarded tutors/staff, organized
sponsored events/fundraisers/hackathons, raised over \$15K, designed curricula, tutored 8-12 year olds.

HONORS

Class of 1960s Scholar in Computer Science	2024
Nominee, Ward Prize for Independent Student Projects in Computer Science	2024
Scheila Glickstein Hackner Award for Dedication in the Service of Education for Others	2023
