

Charlie Tharas

charlie@charliemax.dev

SKILLS

Languages Python, Go, JavaScript/TypeScript, C/C++, Java, WGSL
Frameworks React, Flask, PyTorch, Inspect (AISI), MediaPipe
Infrastructure PostgreSQL, Redis, Temporal, Celery, Docker, nginx, AWS, Cloudflare

EDUCATION

Williams College | GPA: 3.91 | Williams-Exeter Programme at Oxford '26 Williamstown, MA
Computer Science & Math, Concentration in Cognitive Science 2023-2027
Relevant coursework: Geometric Deep Learning, Uncertainty in Deep Learning, Computer Vision, Parallel Processing, Information Theory, Philosophy of Cognitive Science, Ethics of AI

EXPERIENCE

Ramp New York, NY
Software Engineer Intern (Python, React) Jun-Aug 2025, Jul-Sep 2026
(2026) Owned and shipped end-to-end financial workflows spanning new data models, cross-product auth and onboarding, async processing, and new UI surfaces, coordinating across teams through rollout.
(2025) Built OCR-backed tax document workflows and improved S3 document handling to reduce team storage costs by 40%.

Institute for Distributed Artificial Intelligence Oxford, UK
Researcher (Python, Inspect (AISI)) Oct 2025-Aug 2026
Co-first author of Mechanism Design Is Not Enough: Prosocial Agents for Cooperative AI. Designed and implemented large-scale multi-agent LLM experiments, including novel game constructions. Ran evaluations and led statistical analysis and interpretation of results.

Benson Place Blueberry Farm Remote, Heath, MA
Full-Stack Developer (Go, Postgres, Redis, native JS) Jan 2025-Jun 2025
Solo developer. Created bespoke inventory management and order placement system with email handling, payment integrations, OTP auth, 6 specialized product types. Supports 1K annual customers, \$20K TPV.

Williams Students Online Williamstown, MA
Co-president, Student Developer (Go, Postgres, Redis, React) Jan 2024-Present
Technical lead for a student-run platform serving 1.5K DAU. Built core product features including course scheduling, prerequisites, and reviews. Led major CI/CD, ORM, and UI component migrations. Maintain self-hosted infrastructure. Designed and taught a Winter Study experiential course.

HONORS

Class of 1960s Scholar in Computer Science	2024
Nominee, Ward Prize for Independent Student Projects in Computer Science	2024
Scheila Glickstein Hackner Award for Dedication in the Service of Education for Others	2023
